

THE TOTAL PACKAGE – 3 Plants Supplying the Retail & Industrial Markets Nationwide

INDUSTRIES SERVED

Chicago's "Big 3" runs the entire poly bag gamut, from extruding to printing to converting to recycling. Equally comfortable manufacturing low or high density products, Aargus Plastics, Bio Industries and BioStar Films provide a diversity unparalleled in the industry.

QUALITY

For variety, quality, value *and* responsibility – AARGUS PLASTICS IS YOUR SOURCE.

PRODUCTS

Product lines include a full retail spectrum: patch handle, thick/thin, drawtape, fold over die cut, garment and merchandise bags – most with 6-color flexographic print capabilities. On the industrial side, availability includes laundry/dry cleaning, standard or coreless bags on rolls, wicket/staple pack, trash liners and more.

SERVICE

With three intertwined companies at your disposal, our only limitation is your imagination!

SOCIALLY CONSCIOUS

Our use of environmentally friendly water-based inks keeps pollution in check during these ecologically challenged times. Recycling 25 tons of scrap plastic each day also helps keep the world a cleaner place.

Aargus Plastics, Chicago, IL

Nationwide provider of retail & industrial custom bags. Over 200,000 square feet of manufacturing and warehouse space encompassed by three companies with rail siding and on-site silo storage capacity.

A PARTIAL LISTING OF AARGUS INDUSTRIES' PRODUCTS:

RETAIL BAGS

Patch handle, thick/thin, drawtape, fold-over die-cut handle, T-shirt and merchandise – many printed up to six colors.

GARMENT BAGS

For both the retail and laundry/dry cleaning industries. Sloped shoulder; all gauges, sizes and colors, printed or unprinted.

TRASH BAGS

Clear or colored, cut or on standard or coreless rolls. Available in high or linear low density. For better leak control, try a star seal liner!

SPECIALTY PRODUCTS

Printed potato bags, wicket/staple pack, co-extruded bags for retail or industrial markets, gaylord liners, combo-bin liners, header bags and bread/bagel bags.

EVERYTHING ELSE

We are a custom bag manufacturer. If it's polyethylene, we can probably make it. Just ask!
