QUALITY

We pride ourselves in maintaining our competitive position as an industry leader in extruded film products. We manufacture millions of pounds of polyethylene products annually. This colossal volume means that we purchase tremendous inventories of raw materials at the market's best prices. In combination with an efficient staff, extensive production capacity, and multiple shifts, we keep a lid on our operating costs. The results? You save time and money without any sacrifice in product quality.

SERVICE

With a special focus on the varying needs of our customers, our goal continues to be performance and versatility.
