CAPABILITIES AND SERVICE

We see the world of stretch packaging in a unique way that is focused on the value we bring to our customers through our differentiated products, professional customer service representatives, and the most experienced sales pros in the industry. Add 5 state-of-the-art manufacturing facilities across North America with some of the most advanced manufacturing and quality control processes and you have identified The Industry Leader.

In the world of flexible packaging commoditization, Sigma stands above the rest with our proprietary Rite-Gauging process that takes a holistic view of our clients' total packaging operation. First and foremost we create the best packaging for the specific application and use our creative solution to improve efficiencies in their packaging process and improve our clients' profitability.

Our unique, value-added, go-to-market strategy is our key point of differentiation and so important to our beliefs, that we built a 12,000 square foot Training Center and Packaging Assessment Lab in Shelbyville, Kentucky called Packworx. The research, sales training, and client support done at Packworx is unrivaled in the industry...that's what makes us different and we are proud of it!

SIGMA STRETCH FILM OF OKLAHOMA

PRODUCT LIST

SIGMA SELECT CAST

Cast Co-Extruded Film That Excels in 90% of All Applications. The Simple and Economical Solution for Most Applications.

- Provides optimal levels of stretch, strength, puncture resistance and cling while delivering exceptional load-holding force
- Pre-stretch levels up to 250%

SIGMA MAGNUM CAST

High Performance Film. Excellent for Down-Gauged or Higher Stretch Applications.

- Cast, co-extruded from high-technology resins
- Provides optimum load-retention when pre-stretched from 250% to 300%
- Superior strength and stretch characteristics means minimum film usage and maximum load-holding force

SIGMA SUMMIT CAST

Ultra-Premium, One Side Cling Film. Used in Special Applications to Prevent Pallets From Sticking to Adjacent Pallets.

- Cast co-extruded, this premium grade film provides exceptional load-holding force
- Pre-stretch levels up to 250%
- Easy Unwind on all high speed automatics, overheads and bundling applications
- Your best choice for those demanding applications

SIGMA SECURE BLOWN

Blown Machine Film That Offers Toughness, Strength, Superior Puncture and Tear Resistance and Our Highest Load-Holding Force.

- Designed to conquer the challenge of hard-to-hold "C" type loads
- Provides enhanced protection for regular "A" or "B" type loads with up to 250% pre-stretch and superior cling

SIGMA CLASSIC BLOWN

Blown Hand Film With Unrivaled Load-Holding Force and Unparalleled Puncture Resistance.

- The perfect solution for hard-to-hold loads, or to provide enhanced protection for regular loads
- Offers toughness, strength and superior tear resistance
- Wide range of sizes and gauges

SIGMA SUPREME

The Premium Hand Film Made With Special Orientation for a Stronger Film at Thinner Gauges.

- Low case prices and on-the-load cost
- Light weight rolls reduces wrapper fatigue

SIGMA WORLD WRAP CAST

The Thinner, Stronger Hand Film. An Excellent Choice for Most Common A&B Loads. The Clear and Quiet Hand Wrapping Solution.

- Performs with less neckdown for better coverage using narrower widths
- Using narrower widths results in lighter rolls for ease of handling in application
- Crystal clear optics, with near silent un-wind

SIGMA ECOSUPREME

The New Low Cost eco-Friendly Solution. Pre-stretched for Extra Strength. Engineered To Outperform All Competitive Hand Film – Regardless Of Gauge.

- Light weight rolls packaged 4 rolls per case
- Reinforced edges provide unrivaled load holding force
- Core extensions make ecoSupreme easy to handle

SIGMA STRETCHED

The Latest Innovation from Sigma Stretch Films. Pre-stretched for Extra-Strength and Better Yield.

- Minimal neckdown allows maximum coverage
- Reinforced edges reduces edge damage
- Bulk package, no boxes make Sigma Stretched eco-Friendly

SIGMA EXTENDED CORE HAND FILM

Cast Co-Extruded Hand Film That Makes Life a Little Easier. 20" Wide Film.

- Wound on 1-1/4" cores with 5" application handles
- Rolls are lightweight and easy to use in tight spaces
- Loads get wrapped quicker with fewer trips around the pallet
