- Produce
- Bakery
- Sanitary
- Textiles
- Identification Films
- Industrial Films and Bags

CAPABILITIES

We are able to custom produce any blown film in widths ranging from 6” to 108” in gauges ranging from .0007 mil to 12 mil. Our lead times and customer service are exceptional, as our manufacturing and customer service are all centrally located in the manufacturing facility. Our management and staff has more than 20 years experience in the plastics industry. Our extrusion facility has 15 blown film lines and has in excess of 60,000,000 pounds of capacity.

We extrude mono and coextrusion films with sophisticated blending equipment as well as gauge control monitoring for optimum customization and performance. We purchase resins from all the major suppliers and all our products are FDA approved.

PRODUCTS

- Biodegradable and recyclable films
- Coextrusion films
- Sheeting
- “J” Sheeting/Lip Tubing
- EVA’s, Octenes, Metallocenes
- Centerfold
- Tubing
- LDPE
- LLDPE
- UVI films

QUALITY

We consistently provide quality performance films custom produced for our customer’s most demanding requirements using the latest in technology and manufacturing technique to assure the highest level of quality and performance yielding maximum efficiencies.

SERVICE

Our lead times are by far the best in the industry as we have a very hands on manufacturing philosophy and approach. We allow you to minimize the inventory you carry by being able to turn around product in a week to 10 days. We have a reputation of being “the friend of the converter” and we pride ourselves in satisfying very demanding lead times and requirements.
